Additional rpts of lights XXXXXX over house that looked like two headlightson car with other lights close behind that looked like windows. This obj cruising around town for 15-20 mins. At least 100-150 people playing BINGO saw this obj. | | | | 11. COMMENTS Second hand rpt from witness that would not give name. Rpt phoned in to FTD from Lockbourne rather than being submitted in accord with 200-2. No data presented to indicate that the obj viewed by the BINGO players could NOT have been cuased by a/c. Initial obj could have been caused by Satellite or a/c. A/C most likely cause of these rpts.
